EDUCATION

New York University

Expected May 2027

Bachelor of Arts: Computer Science and Mathematics | Dean's List (All Academic Years)

GPA: 3.79/4.0

Relevant Coursework: Data Structures, Algorithms, Operating Systems, Software Engineering, Numerical Computing

EXPERIENCE

Eagor | Software Engineering Intern | New York, NY

July 2025 – Oct 2025

- Shipped 7+ production features per week in a 4-engineer team, accelerating iteration speed for investor demos
- Built Google Calendar sync system with conflict resolution and local caching, improving reliability of event data
- Improved engagement for 100+ daily users by developing SwiftUI features (toasts, embedded YouTube videos)

NYU IT High Speed Research Network | Researcher | New York, NY

Jan 2025 – May 2025

- Created a Python benchmarking suite to test TCP/UDP/WebSocket performance across packet configurations
- Identified Remote TCP data limit of 5,000 bytes, enabling fix that improved capacity by 1,200% to 65,000 bytes
- Discovered a TCP multi-sender limit of one sender and informed NYU researchers on data transfer constraints

NYU Courant Institute of Mathematical Sciences | Grader | New York, NY

Sept 2025 – Present

- Provide feedback on 100 C programming assignments per month to improve students' core programming skills
- Evaluate student code for efficiency and memory safety to ensure comprehensive adherence to C best practices
- Review submissions for plagiarism and AI usage, promoting honest coding practices among student developers

Art of Problem Solving | Grader | New York, NY

Oct 2024 – Present

- Assess 1,500+ proofs per year for AIME qualifier, identifying top talent among American high school students
- Advance program's mission to develop next generation of STEM leaders through constructive proof feedback
- Partner with a grading team of 10 to standardize rubrics and maintain evaluation quality across all submissions

PROJECTS

Places2Be | JavaScript, React Native, Firebase

Oct 2024 – Feb 2025

- Cooperated with team of 4 to complete NYU social discovery app using React Native and Firebase in 4 months
- Programmed 8 responsive front-end pages using React Native to implement pixel-perfect Figma design outlines
- Configured Google Firebase backend for secure account authentication and realtime comment synchronization

SwipeBeats | Python

July 2025 – Aug 2025

- Engineered a Python tool to group Spotify users' liked songs by genre, enhancing the platform's filtering ability
- Gamified playlist creation with swipe-based interface, enabling users to process 100+ songs in under 5 minutes
- Integrated Spotify API with OAuth and realtime audio streaming to enable seamless playlist creation workflows

LEADERSHIP & COMMUNITY ENGAGEMENT

Tech@NYU | Member | New York, NY

Sept 2024 – Present

- Ranked first at the Fall 2024 Project Showcase by club team lead for Places2Be mobile application development
- Engage with networking events to stay current with the tech industry's trends and expand professional network

Greenwich Undergraduate Advisory Council | Director of Comms. | New York, NY

Oct 2024 – May 2025

- Developed communications skills through NYU outreach events to better engage diverse student organizations
- Led publicity efforts for up to 10 hall council events per month, increasing student engagement and attendance
- Managed \$7,000 hall council budget, eliminating wasteful spending and reallocating funds to resident amenities

TECHNICAL SKILLS

Languages: Python, Java, C, MATLAB, HTML/CSS, JavaScript, SwiftUI, C++

Frameworks & Tools: React, React Native, TailwindCSS, Figma, Node.js, Flask, MongoDB, Firebase, Docker, Git
